REQUEST FOR ACCESS

October 8, 2010

Re: Access Authorization to Sample Residential Water Wells in and Around the West County Road 112 Ground Water Plume Superfund Site in Midland, Texas, Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA"), 42 U.S.C. § 9601 et seq., as amended.

West County Road 112 Ground Water Plume Superfund Site, EPA ID TXN000606992

Dear Resident or Property Owner:

The United States Environmental Protection Agency ("EPA") is investigating the release or threat of release of hazardous substances, pollutants, or contaminants in and around the West County Road 112 Ground Water Plume Superfund Site ("Site") in Midland, Texas. Pursuant to the EPA's mandate to protect human health and the environment, the EPA is requesting your consent for access to your property for the collection of ground water samples from any on-site water well(s). During the sampling activities, the survey coordinates for each well will also be recorded so that accurate well locations can be mapped for the Site. Access to the property is necessary to perform sampling activities and to transport equipment and authorized personnel to and from the property.

The initial sampling event is scheduled to begin the week of November 15, 2010. The water samples will be analyzed for total metals, hexavalent chromium, and/or other parameters. The EPA will mail the results of the laboratory analyses for samples collected from each well to the resident or property owner at no cost beginning in February 2010. The number of wells in the subsequent sampling events may be increased or decreased based on the results from this initial sampling event. Please indicate your consent to grant access to EPA to conduct the described sampling activities at the property by signing and dating the enclosed access authorization. The EPA will begin collecting the individual signed agreements on October 22, 2010.

If you have any questions about the upcoming sampling event, please contact Vincent Malott at 1-800-533-3508 or 214-665-8313. Your assistance and cooperation are appreciated.

Sincerely,

Vincent Malott
EPA Remedial Project Manager
Superfund Division

Enclosure

CONSENT FOR ACCESS TO PROPERTY

- I, _____, am the owner or tenant of the Property at the following address in Midland, Texas and as such have the authority to sign this authorization.

(Street Number and Street Name of Property)

- This authorization allows the U.S. Environmental Protection Agency (EPA), its officers, employees, contractors, and other authorized representatives to have access to the Property to conduct sampling activities for the West County Road 112 Ground Water Plume Superfund Site. The EPA's activities at the Property will include, but not be limited to, the following:
 - Collection of water samples as necessary;
 - Collection of physical data on the well location and construction; and,
 - Transportation of equipment onto and about the Property as necessary to accomplish the above activities.
- I realize that these actions by the EPA are undertaken pursuant to its response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation, and Liability Act (commonly referred to as "Superfund"), 42 U.S.C. § 9601 et seq., as amended.
- Date: _____
- Signature: _____
- Mailing address if different than the above property address:
